Accelerate the ENGIE Group's investments in renewable generation and infrastructure assets, implementing a new capital allocation strategy, focusing on the growth of initiatives directly linked to the energy transition.

Strategic review of part of the Client Solutions business, which will be assessed in the light of its coherence with the strategic priorities of the ENGIE Group.

Enhance the ENGIE Group's divestment program, considering opportunities to divest non-core businesses and minority stakes in companies, to increase financial flexibility to fund investments in renewable energy and infrastructure assets.

The Company's Chief Executive Officer, Eduardo Sattamini, highlighted: *"ENGIE Brasil Energia has been delivering a relevant contribution to ENGIE's global success and is in line with the orientations now released by its Board of Directors, therefore, it should not affect the Company. The investments made recently in the acquisition of TAG and in the construction of wind farms and transmission lines confirm the interest of the ENGIE Group in strengthening our position as an investment platform in energy infrastructure."*
