ANNOUNCEMENT TO THE MARKET

Assú Sol Photovoltaic Complex begins commercial operations of its first plant

ENGIE BRASIL ENERGIA S.A. ("Company or ENGIE"), wishes to inform its investors and the market at large that the National Electric Energy Agency (Aneel) authorized the entry into commercial operations of the first plant of the Assú Sol Photovoltaic Complex ("Assú Sol"), as from January 8, 2025, with 40.5 MW, representing 5.4% of the project's total installed capacity.

Assú Sol is located in Assú (RN) and consists of 16 photovoltaic farms, with an installed capacity of 752.7 MW.

"At a total investment of approximately R$ 3.3 billion, the start of commercial operations of the first plant of the Assú Sol Photovoltaic Complex, eighteen months after work began on implementation, is aligned to our planned schedule and reinforces our commitment to excellence", commented Eduardo Takamori, Chief Financial and Investor Relations Officer.

"The startup of commercial operations at Assú Sol represents an achievement in our organic growth and in the expansion of the installed capacity of the generating park we operate, which currently exceeds 11 GW. This project, which reinforces our commitment to the energy transition, is scheduled to reach full commercial operation by the end of 2025, consolidating our position as leaders in the generation of 100% renewable energy in Brazil" observes the Company's Chief Executive Officer, Eduardo Sattamini.

Florianópolis, January 8, 2025.
