ANNOUNCEMENT TO THE MARKET

ENGIE BRASIL ENERGIA S.A., a publicly listed company, with registered offices in the city of Florianópolis, state of Santa Catarina at Rua Paschoal Apóstolo Pítsica, 5064, enrolled in the tax register (CNPJ) under number 02.474.103/0001-19 ("EBE" or "Company"), and pursuant to the provision in CVM Instruction 358/2002, wishes to inform its shareholders and the market at large that at a Meeting of the Board of Directors held today, approval was given for the investments necessary for the installation of the Campo Largo Wind Complex - Phase 2 ("Campo Largo 2" or "Project"). Situated in the municipalities of Sento Sé and Umburanas (BA), the Project has a total installed capacity of 361.2 MW and approximately 200.0 average MW of assured energy, thus allowing work to begin on its construction.

The Company is to invest approximately R$1.6 billion in the Project, the entry into operations of which is expected for early 2021. With the installation of the second phase of the Campo Largo Wind Complex, EBE's total installed capacity will surpass 1.2 gigawatt (GW).

Campo Largo 2 will benefit from synergies with existing structures at the site such as the substation and transmission line, already in place since the completion of the first phase of Campo Largo – Phase 1. The latter together with the Project will have a combined installed capacity of 687.7 MW. The production from Campo Largo 2 is totally directed towards meeting the growing demand for energy in the Free Contracting Environment (ACL) through the client portfolio served by the Company's trading operation.

Eduardo Sattamini, EBE's Chief Executive Officer remarked: "It is with great satisfaction that we are able to announce the start of work on installing Campo Largo 2. This is a key step forward in the strategy of advancing towards EBE's goal of making our power generating complex increasingly more renewable and to be closer and closer to our customers."
