Tel: +55 (48) 3221-7225 - Fax: +55 (48) 3221-7253 - www.engie.com.br/investidores

Dear Investor Relations Officer,

1. *We refer to the news item published today in the newspaper, Valor Econômico, Companies Section, entitled: "Engie plans to invest R$ 10 bi in renewable energy over two years", containing the following affirmations, respectively:*

> *Brazil is at the heart of Engie Brasil's strategy for increasing the portfolio for generation and new technologies based on renewable sources. The company plans to invest R$ 10 billion over the next two years, of which R$ 3 billion from its own capital, to increase the portfolio by about 1,500 MW of installed capacity besides other projects.*
> *[...]*
> *Mauricio Bähr, the company's CEO, tells Valor that by 2025, the ENGIE wants to have reached 50 GW in renewables worldwide and by 2030, 80 GW. This means ramping up growth rates to add 4 GW every year to 2025; and thereafter, further still to 6 GW annually from 2026. All this in parallel with the implementation of the decarbonization plan.*

2. *In the light of the foregoing, please clarify whether the news is correct and, if in the affirmative, explain the reasons why it was deemed unnecessary to publish a material fact as well as comment other information considered important on the matter, including any eventual reconciliation with the information featured in the updated Institutional Presentation – 2Q22, published on August 08, 2022 through the Sistema Empresas.NET.*

3. *It should be pointed out that pursuant to Article 3 to CVM Resolution 44/21, it is the responsibility of the Investor Relations Officer to disclose and notify to the CVM and where appropriate, the stock exchange and the organized over-the-counter entity across which the Company's securities are eligible for trading, any material act or fact occurring or related to the corporate businesses, as well as ensuring its ample and immediate dissemination simultaneously in all the markets in which these same securities are eligible for trading.*

4. *Furthermore, we would point out that the practice of disclosing to the market your expectations for future performance (guidance), both over the short and long-term, principally with respect to financial and operational aspects of the Company's businesses, involves the preparation of quantitative forecasts.*

5. *In this context, pursuant to the provision in Paragraph 1, Article 20 of CVM Resolution 80/22, should the affirmations mentioned be correct, item 11 of the issuer's Reference Form should be updated with the presentation of the information required under letters "a" to "d".*

6. *This manifestation must be made through the Sistema Empresa.NET channel, Announcement to the Market category, type: Clarifications on matters raised by CVM/B3, subject: News Item Disclosed in the Media, this to include the transcription of the Letter. The response to this request for manifestation through*

ENGIE BRASIL ENERGIA S.A. Rua Paschoal Apóstolo Pítsica, 5064 - CEP 88025-255
Florianópolis - Santa Catarina - Brasil
Tel: +55 (48) 3221-7225 - Fax: +55 (48) 3221-7253 - www.engie.com.br/investidores

an Announcement to the Market does not exempt you from the eventual finding of responsibility for the failure to disclose a Material Fact on a timely basis pursuant to CVM Resolution 44/21.

7. *We would draw your attention that as per the Companies' Relations Management in the use of its legal attributes and on the basis of subsection II, Article 9 of Law 6.385/76, and CVM Instruction 608/19, the imposition of a punitive fine is incumbent in the amount of R$ 1,000.00 (thousand reais), without loss of other administrative sanctions, for failure to show compliance with the requirements contained in this Letter, to be sent exclusively by e-mail by August 12, 2022"*

Regards.

In attention to the above transcribed letter ("Letter") with respect to the report published in the newspaper *Valor Econômico* on August 11, 2022, as Investor Relations Officer of ***ENGIE BRASIL ENERGIA S.A.**, a publicly listed company with its head office in the city of Florianópolis, state of Santa Catarina, situated at Rua Paschoal Apóstolo Pítsica, 5064, Bairro Agronômica, ("EBE" or "Company")*, respectfully wish to present the following clarifications:

The said article does not pretend to be an official announcement by EBE or its controlling company, ENGIE Brasil Participações Ltda. ("EBP"), but a report of a journalistic nature, prepared by a press vehicle based on an interview given by Maurício Stolle Bähr, CEO of EBP, which requires caution in relation to the interpretation of its content in order to avoid confusing the various corporations comprising the ENGIE Group which globally is governed by **ENGIE S.A.**, a publicly held company listed on the Paris stock exchange (Euronext).

In the report, the focus of the content is the ENGIE Group as a whole and not EBE specifically. Please note that the material presents Maurício Stolle Bähr as the "CEO of the company", which can only refer to EBP, of which he is effectively the Chief Executive Officer, while the Chief Executive and Investor Relations Officer of EBE is the undersigned.

Thus, in the interview, EBP's Chief Executive Officer discourses on his impressions and expectations for growth of investment in Brazil by the ENGIE Group based on visions and strategies for the development of the ENGIE Group, visions and strategies of which have already made public and are of common knowledge to the market (including but not limited to its investments in the Company).

Please note for example the following information in the public domain and already filed with the CVM, referring more directly to the Company:

a) **Investment by the Company in the Santo Agostinho Wind Complex (Phase I):** 434 MW of installed capacity located in the state of Rio Grande do

ENGIE BRASIL ENERGIA S.A. Rua Paschoal Apóstolo Pítsica, 5064 - CEP 88025-255

Tel: +55 (48) 3221-7225 - Fax: +55 (48) 3221-7253 - www.engie.com.br/investidores

Norte - R$ 1.5 billion of investment (still remaining until the conclusion of the project).

*Reference: **(i)** "Announcement to the Market" of January 15, 2021; **(ii)** pages 5 and 10 of the "Results Release -2Q22" of August 2022; and **(iii)** pages 23 and 38 of the "Institutional Presentation 2Q22" of August 2022;*

b) Investment by the Company in the Serra do Assuruá Wind Complex: approximately 880 MW of installed capacity located in the state of Bahia **-** R$ 6 billion of investment.

*Reference: **(i)** "Announcement to the Market" of June 21, 2022, following the purchase of the development rights of the said project from the company, PEC Energia S.A.; **(ii)** pages 2, 5 and 11 of the "Results Release – 2Q22"; and **(iii)** pages 6, 28 and 38 of the "Institutional Presentation – 2Q22"of August 2022;*

c) The Company consistently discloses its list of **projects at an advanced phase of development**, including **(i)** the *Santo Agostinho Photovoltaic Complex* (509 MW), **(ii)** *Santo Agostinho Wind Complex, Phase II* (279 MW); **(iii)** *Assú Photovoltaic Complex* (870 MW), **(iv)** *Campo Largo Photovoltaic Complex* (400 MW), **(v)** *the Umburanas Wind Complex - Phase II* (250 MW); **(vi)** *Campo Largo Wind Complex III* (250 MW); and **(vii)** *Alvorada Photovoltaic Complex* (90 MW).

*Reference: **(i)** pages 5, 11 and 12 of the "Results Release -2Q22"; and **(ii)** page 28 of the "Institutional Presentation – 2Q22" of August 2022;*

The excerpt from the report which mentions that "[...] *by 2025, Engie wants to have reached 50 GW in renewables worldwide and by 2030, 80 GW. This means ramping up growth rates by an additional 4 GW every year to 2025; and thereafter, further still to 6 GW annually in 2026. All this in parallel with the implementation of the decarbonization plan"*, refers specifically to the global ambitions of the ENGIE Group, considering the various jurisdictions in which it operates (or intends to operate) and not necessarily Brazil, and even less so in relation EBE.

In the light of the foregoing, we understand that the information cannot be considered as either previously unpublished or relevant to EBE, and for this reason, subject to disclosure to the market, not having previously been disclosed in an appropriate way as determined by the applicable legislation.

And we would add that that the information contained in the news item cannot be and should not be construed as forecasts of EBE's future performance, in this case, the rules in Article 21 of CVM Resolution 80/02 not being applicable. This information merely represents the

ENGIE BRASIL ENERGIA S.A. Rua Paschoal Apóstolo Pítsica, 5064 - CEP 88025-255
Florianópolis - Santa Catarina - Brasil
Tel: +55 (48) 3221-7225 - Fax: +55 (48) 3221-7253 - www.engie.com.br/investidores

considerations of the Chief Executive Officer of EBP on envisaged investments by the ENGIE Group as a whole and as has been explained, are aligned with information which has already been published should not be seen as guidance on EBE's future performance.

Notwithstanding, we reiterate our commitments with the best levels of transparency and governance and remain at your disposal for any additional clarifications which may be necessary.

Florianópolis, August 12, 2022.

EDUARDO ANTONIO GORI SATTAMINI
Chief Executive and Investor Relations Officer of
ENGIE BRASIL ENERGIA S.A.
