Florianópolis, June 28, 2018.

B3 S.A. – Brasil, Bolsa, Balcão

Office of Public Company Supervision and Offers of Variable Income Securities
Att.: Ana Lucia da Costa Pereira

Dear Madam,

ENGIE BRASIL ENERGIA S.A., a publicly held company with its registered offices in the city of Florianópolis, state of Santa Catarina, Rua Paschoal Apóstolo Pítsica, 5064, Bairro Agronômica, ("EBE" or "Company"), is pleased to present the following clarifications in relation to Official Letter 1405/2018-SAE (transcribed hereunder), received by the Company on June 27, 2018 ("Official Letter"):

> ***ENGIE Brasil Energia S.A.***
> *Att. Carlos Henrique Boquimpani de Freitas*
> *Investor Relations Officer*
>
> *Reference:* ***Request for clarifications on a report in the press.***
>
> *Dear Sirs,*
>
> *A report published by the newspaper Valor Econômico on June 27, 2018 under the headline "Debentures of Engie" includes, among other information, that Engie Brasil Energia has concluded a R$ 1.8 billion debenture issue in two series.*
>
> *We request clarifications on the report by June 28, 2018 with your confirmation or otherwise, as well as other information deemed important.*

Firstly, the Company informs that contrary to the headline of the said article, the issue of the mentioned debentures is being undertaken through its subsidiaries Companhia Energética Jaguara and Companhia Energética Miranda ("Issuers").

The information with respect to volume and remuneration in the report published by the newspaper Valor Econômico is already in the public domain. Such information (volume and maximum remuneration) was subject to corporate approvals for the execution of the public offering for distribution with restricted placement efforts pursuant to CVM Instruction 476, of the 1st (first) simple, debenture issue, not convertible into shares, of the real guarantee type, in 2 (two) series, for the Issuers in the amounts of R$ 1,117,000,000.00 (one billion, one hundred and seventeen million reais) and R$ 685,000,000.00 (six hundred and eighty-five million reais), respectively ("Offers"), both executed on May 11, 2018 (copies attached for your reference), as well as being the subject of a Material Fact disclosed by the Issuers on the same date, both of which are attached for your information. The minutes of the Meetings of the Board of Directors of the Issuers were duly filed at the registered offices of each Issuer as well as being published in the websites of the CVM and the Issuers themselves. The Material Facts were published by the Issuers on May 11, 2018.

In addition, EBE would point out that it published a Material Fact on the same date informing that its 173rd Meeting of the Board of Directors – held on that date – had approved the execution of the Offers.

Hence, there is no further material information with respect to the report which should have been disclosed to the market and which had not already been published appropriately pursuant to the current legislation.

Neither EBE nor the Issuers made any declaration to the newspaper in question and in no way were parties to the published report. This news was put out without the knowledge of the Company and the Issuers, being based on information already in the public domain (volume and maximum remuneration of the offers' debentures) as explained above. Consequently, in no way can EBE or the Issuers be deemed to have infringed Article 12 of CVM Instruction 476/09, since neither the Issuers nor EBE made any statements to the media on the Offers.

Finally, for your information, the bookbuilding procedure has been completed by Banco Safra, the lead manager of the Offers, and both Banco Safra as well as the Issuers will be working on the settlement of the Offers in conjunction with B3 over the next few days in accordance with contacts maintained, including with B3 itself.

The conclusion of the Offers will be duly notified to the CVM by Banco Safra pursuant to Article 8 to CVM Instruction 476/09.

Carlos Henrique Boquimpani de Freitas
