ANNOUNCEMENT TO THE MARKET

ENGIE BRASIL ENERGIA'S SHARES REMAINS IN B3 INDICES – SUSTAINABILITY (ISE) AND CARBON EFFICIENT (ICO2)

The Company was listed in 10th position in ISE´s ranking, being the electricity sector Company with the greatest weight in the portfolio.

Florianópolis, December 16, 2022 – ENGIE BRASIL ENERGIA S.A. ("ENGIE" or "Company") (B3: EGIE3, ADR: EGIEY) announces to the market at large that it remains part of the Corporate Sustainability Index (ISE) of B3 – Brasil, Bolsa, Balcão S.A. ENGIE has been part of the ISE portfolio since its launch, in 2005, an achievement done by only five other companies.

With a weigh of 2.3% in the portfolio, the Company was listed in 10th overall position, among the 70 companies comprising the index, being the Company in the electricity sector with the highest participation in the Index, in the second preview presented today. This is the 18th consecutive year that ENGIE Brasil Energia has been in the list.

"Being on the ISE portfolio is always an important sign that our commitment to sustainable development is on the right path, which is a great source of pride, certainly shared by our approximately 1,200 employees. We are all aware of the challenges still imposed on this trajectory: making ENGIE Brasil Energia an increasingly sustainable company, expanding its presence in renewables and transmission, acting with efficiency and attention to people and in step with transition trends energy. We continue our sustainability trajectory, attentive to all its aspects, and aiming to create value for all our stakeholders", states the Company's Chief Executive and Investor Relations Officer, Eduardo Sattamini.

B3´s Carbon Efficient Index (ICO2)

ENGIE Brasil Energia was also selected, for the third year, to compose the new portfolio of the Carbon Efficient Index (ICO2) of B3 - Brasil, Bolsa e Balcão. ICO2 is composed of shares of the companies comprising the IBrX 100 that have greater transparency in relation to the greenhouse gas emissions report and how they are preparing for a low carbon economy.

Launched in 2010, ICO2 B3 seeks to act as a catalyst for discussions on climate change in Brazil. "In 2023 we should reach an important milestone in our low carbon trajectory, by becoming a 100% renewable generator. Being part of the ICO2 demonstrates that our

performance and transparency on the subject are on the right track. We will continue with our commitment to involve suppliers and society in this journey", Sattamini adds.

Florianópolis, December 16, 2022.

Eduardo Antonio Gori Sattamini
Chief Executive and Investor Relations Officer
