ANNOUNCEMENT TO THE MARKET

ENGIE BRASIL ENERGIA S.A., a publicly held company, with registered offices in the City of Florianópolis, state of Santa Catarina at Rua Paschoal Apóstolo Pítsica, 5064, enrolled in the tax register CNPJ under number 02.474.103/0001-19 ("ENGIE" or "Company"), and pursuant to the provisions of CVM Resolution 44/2021 of August 23, 2021, which revoked CVM Instruction 358 of January 3, 2002, wishes to inform its shareholders and the market in general that all the wind turbines comprising the Campo Largo II Wind Complex ("Campo Largo II") are now in commercial operations.

The startup in commercial operations of the last three of the 11 wind farms at Campo Largo II was authorized by the National Electric Energy Agency (Aneel) as of the today's date.

"The existing synergies in the region, among them the use of the same substation, transmission line, worksite infrastructure and internal access roads, have allowed this project to be delivered ahead of schedule. In addition, despite the Covid-19 pandemic, the strong commitment and experience of our field teams proved to be advantages in the management of this project in the midst of so many challenges", said Eduardo Sattamini, Chief Executive and Investor Relations Officer of ENGIE Brasil Energia.

Campo Largo II has an installed capacity of 361.2 MW and is located in the municipality of Umburanas, some 420 km from the city of Salvador, state of Bahia, in the same region where the Company already operates the Campo Largo and Umburanas (686.7 MW of installed capacity) wind complexes on a commercial basis.

With Campo Largo II now in full commercial operations, ENGIE's generator park now totals 1,262.6 MW of installed wind power capacity, equivalent to 49 commercially operational wind farms, and overall a portfolio of 71 plants from generating energy from different sources and totaling 9,075.7 MW of installed capacity in 12 states in the five regions of Brazil.

Florianópolis, September 2, 2021.
