ANNOUNCEMENT TO THE MARKET

ENGIE BRASIL ENERGIA S.A., a publicly listed company with its registered offices in the city of Florianópolis, state of Santa Catarina at Rua Paschoal Apóstolo Pítsica, 5064, enrolled in the tax register (CNPJ) under number 02.474.103/0001-19 ("Company"), pursuant to the provision in CVM instructions 358/2002 and 480/2009, announces to its investors and the market at large that the Gralha Azul Transmission System ("Gralha Azul"), has received authorization from the National System Operator (ONS) to begin commercial operations of its 230kV – Ponta Grossa – São Mateus do Sul and Ponta Grossa – Ponta Grossa Sul transmission lines ("TL") as from August 21, 2021.

Located in the state of Paraná, Gralha Azul was acquired at Auction 02/2017 and covers the construction of a stretch of approximately 1,000 kilometers, six 230kV and four 525kV TLs, as well as the installation of five new substations and the expansion of a further five already in existence.

The entry into commercial operations of the two transmission lines has been anticipated by more than 18 months in relation to the calendar agreed with the National Electric Energy Agency (Aneel) while installation work on the Gralha Azul Transmission System as a whole is expected to be completed by the end of 2021.

"The startup in commercial operations of Gralha Azul during the Covid-19 pandemic, and the first transmission system to be constructed by the Company, underscores the execution capacity of our team. It also marks ENGIE Brasil Energia's effective debut into a new line of business in Brazil and confirms our position as an energy infrastructure investment platform", remarked the Company's Chief Executive Officer, Eduardo Sattamini.
