ANNOUNCEMENT TO THE MARKET

ENGIE BRASIL ENERGIA GUARANTEES EXPANSION IN THE ENERGY TRANSMISSION SECTOR

ENGIE BRASIL ENERGIA S.A. ("ENGIE" or "Company"), an entity listed as a publicly traded corporation before the Brazilian Securities Exchange Commission ("CVM"), pursuant to the contents of CVM Resolution No. 44, of August 23, 2021, wishes to inform its investors and the market at large that the Company, in consortium with its wholly-owned subsidiary ENGIE Transmissão de Energia II, placed the winning bid for the following block at Transmission Auction No. 01/2022 ("Auction") held on the present date by the National Electric Energy Agency ("ANEEL"):

Block	Localization	Estimated length	Maximum RAP (R$)	Contracted RAP (R$)	Discount	Aneel Expected Investment (R$)
7	Pará (PA)	1 km	16,171,062.27	6,484,596.00	59.9%	110,121,735.00

Block 7 provides for the installation of 1 kilometer of transmission lines in the state of Pará and one complementary substation for the Novo Estado project, which is already at an advanced stage of implementation by ENGIE. The expectation is that the reduction in the total investment in the implementation of the project will exceed 20% and achieve about 18 months' early entry into commercial operation compared with Aneel's expected deadlines, subject to change.

The concession period for the public transmission service, including licensing, construction, operation and maintenance of the transmission facilities will be thirty years from execution of the Concession Agreement.

*"*The result in today's Auction follows our strategy of portfolio diversification and sustainable growth. As block 7 is complementary to the Novo Estado Project, which has 1,800 km of lines, in the states of Pará and Tocantins, we will be able to optimize efforts through the experience we already have in the region, in addition to the resources used, which allowed us to increase our competitiveness, in order to promote our vision of future in a responsible way", said ENGIE Brasil Energia's Chief Executive and Investor Relations Officer, Eduardo Sattamini.

The Company reiterates its commitment to keeping its shareholders and the market at large informed on the developments on this and any other matters relevant to the market.

Florianópolis, June 30, 2022.
