TRACTEBEL ENERGIA S.A., a publicly listed company with registered offices in the city of Florianópolis, state of Santa Catarina at Rua Paschoal Apóstolo Pítsica, 5064, enrolled in the tax register (CNPJ) under number 02.474.103/0001-19, the largest private sector electric energy generator in Brazil, announces to the shareholders and to the market in general that it has again been selected as a component of BM&FBOVESPA's Corporate Sustainability Index (ISE) and this for the tenth consecutive year.

The tenth ISE portfolio includes 51 shares of 40 different companies which at the close of the trading day on November 24 represented a market value of R$ 1.22 trillion, or 49.87% of the total value of companies with shares traded on the São Paulo Stock Exchange.

The new ISE portfolio will be effective from January 5, 2015 until January 2, 2016.

The ISE was established in December 2005, the fourth of its type in the world (similar indices preceding it in New York, London and Johannesburg) and reflects the average return of a theoretical share portfolio of companies listed on the BM&FBOVESPA and employing the best sustainability practices.

To have been part of the ISE since inception is for Tractebel Energia important recognition of the Company's practices of corporate governance and economic, social and environmental management.
