ENGIE BRASIL ENERGIA S.A.
A Publicly Listed Company – CNPJ 02.474.103/0001-19
NIRE 4230002438-4

MATERIAL FACT NOTICE

ENGIE BRASIL ENERGIA S.A. ("Company"), pursuant to the contents of Article 157, paragraph 4 of Law No. 6.404, of December 15, 1976, as amended ("Brazilian Corporations Law") and CVM Resolution No. 44, of August 23, 2021, announces that on this date, as approved by the Company's Board of Directors, the Company entered into the "Investment Agreement" ("Investment Agreement") between its controlled company Engie Brasil Energias Complementares Participações Ltda. ("Engie Energias Complementares") and Itaú Unibanco S.A ("Investor"), and, as intervening consenting party, the Company, Maracanã Geração de Energia e Participações S.A. ("Maracanã"), and others parties, regulating, among other matters, the subscription, by the Investor, of new preferred shares issued by Maracanã, on the amount of R$ 1,000,000,000.00 (one billion Brazilian reais), representing 100% (one hundred per cent) of the preferred shares and 12.34% (twelve point thirty four per cent) of Maracanã's capital stock ("Transaction").

The Company clarifies that, in the context of the Transaction, Maracanã's articles of association was amended to provide the creation of new class of preferred shares to be held by the Investor, which are entitled to certain advantages and preferences.

Upon the implementation of the Transaction, the Company will continue to be the owner, through Engie Energias Complementares, of all of the common shares representing 87.66% (eighty-seven point sixty-six per cent) of Maracanã's capital stock.

In the context of the Transaction, the parties also entered into the Maracanã's Shareholders Agreement to regulate it, among other matters, the relationship between Engie Energias Complementares and the Investor as Maracanã's shareholders, with the Company, Maracanã and the SPVs as intervening consenting parties.

Maracanã is a holding company that controls Special Purpose Vehicles ("SPVs") that will build, develop and operate wind powers generation plants located in the northwest of the State of Bahia, in the city of Gentio do Ouro, with an installed power capacity between 800 and 850 MW, within the scope of Serra do Assuruá Wind Complex.
