MATERIAL FACT

ENGIE BRASIL ENERGIA BIDS SUCCESSFULLY IN AUCTION REINFORCING ITS OPERATIONS IN ENERGY TRANSMISSION

ENGIE BRASIL ENERGIA S.A. ("ENGIE" or "Company"), wishes to inform its investors and the market at large that its wholly-owned subsidiary, ENGIE Transmissão de Energia Participações S.A. bid successfully at Transmission Auction 01/2026 ("Auction"), held on the present date by Agência Nacional de Energia Elétrica ("Aneel"), for the following lots:

Lot	Location	Estimated length (km)	Construction term (months)	Maximum RAP (R$ million)	Contracted RAP (R$ million)	Discount	Aneel estimated investment (R$ million)
2	PR/SC	143	42	34.2	18.1	46.89%	193.6
3A	RN	-	42	47.8	22.8	52.30%	285.1
3B	CE	-	42	45.7	20.6	54.81%	272.1
3C	CE	-	42	90.4	39.6	56.20%	538.8
3D	RN	-	42	47.8	21.6	54.77%	285.1

Lot 2 provides for the construction of a 230 kV transmission line of approximately 143 km in the states of Paraná and Santa Catarina. The project offers local and operational synergies with the Company's assets in the region, notably the Gralha Azul (already operational) and Graúna (under implementation) transmission systems.

Sublots 3A-3B-3C-3D relate to the installation of five synchronous compensators in the states of Ceará and Rio Grande do Norte, where the Company already has generation assets, ensuring operational efficiency and synergy. In particular, sublot 3D involves installation in the Açu III substation, connected to the Company's Assú V Photovoltaic Plant.

The term of this public transmission service concession, including licensing, construction, operation, and maintenance of the transmission facilities, will be thirty years, effective from the date of signing the Concession Agreement. The maximum deadline for commencing operations is December 2029 for all lots awarded by the Company.

The Company reiterates its commitment to maintain shareholders and the market at large notified as to developments of this and any other matter of interest to the market.
