MATERIAL FACT NOTICE

ENGIE BRASIL ENERGIA WINS LOT 1 AND CONTINUES TO EXPAND IN THE ENERGY TRANSMISSION SECTOR

ENGIE BRASIL ENERGIA S.A. ("ENGIE" or "Company"), announces to its investors and the market at large that the Company, in consortium with its wholly-owned subsidiary ENGIE Brasil Transmissão de Energia Participações II S.A., was the winning bidder at Transmission Auction No. 02/2024 ("Auction"), held on the present date by the National Electric Energy Agency ("ANEEL"), for the following lot:

Lot	Location	Estimated Length (km)	Maximum construction period (months)	Maximum RAP (R$ million)	Contracted RAP (R$ million)	Discount	Aneel-presumed investment (R$ million)
1	SC/PR/MG/ SP/ES	780	60	486.4	252.2	48.14%	2,933.6

Lot 1 provides for the installation of around 780 kilometers of Transmission Lines, comprising six new transmission lines, two new substations, and one new sectioning, as well as the continuation of services for four existing lines and two existing substations, in the states of Santa Catarina, Paraná, Minas Gerais, São Paulo, and Espírito Santo.

The concession period for the public transmission service, comprising licensing, construction, operation and maintenance of the transmission facilities will be thirty years from execution of the Concession Contract.

With this achievement, ENGIE continues to expand in the transmission segment. *"Strengthening our position in the transmission sector is one of ENGIE Brasil Energia's focuses. Participation in tenders in recent years and the implementation of the transmission systems Gralha Azul in Paraná; Novo Estado, between Pará and Tocantins; Gavião Real, in Pará, as well as the Asa Branca Transmission System, under implementation in the states of Bahia, Minas Gerais, and Espírito Santo, have brought us fundamental technical improvement and experience in this sector, which is so important for increasing energy security in the country"*, affirmed Eduardo Takamori, Chief Financial and Investor Relations Officer of ENGIE Brasil Energia.

"We entered this auction with confidence in our ability to develop a competitive project, with high standards of quality, health and safety, and socio-environmental responsibility. Our victory in Lot 1, which has synergy with our activities in Paraná, Santa Catarina, and Minas Gerais, is the result of months of preparation, engineering studies for project optimization and market alignment, obtaining firm proposals from top-tier suppliers and construction companies, while maintaining our principles of financial discipline, execution capacity, and safety requirements. It is this commitment and professionalism that makes us a relevant player not only for ENGIE Brasil Energia's direct stakeholders but for the entire electric sector in Brazil", observes Eduardo Sattamini, ENGIE Brasil Energia's Chief Executive Officer.

The Company reiterates its commitment to keeping its shareholders and the market at large abreast of developments of this and any other matter of relevance to the market.
